2. Barriers to pupils' engagement in sport
<ul style="list-style-type: none"> There is limited space available within the school grounds for sporting activity or for multiple clubs to take place at the same time. This is constantly being addressed and the space is being used to maximise all available areas in school.
<ul style="list-style-type: none"> Sport and general fitness are not universally valued by all. There is some lack of parental engagement, which can mean that children are limited in their participation as parental backing can be lacking.
<ul style="list-style-type: none"> There is evidence to indicate that a proportion of children are not exposed to active lifestyles outside of school.
